Market Leader in China & Asia

As China's leading brand protection group, our reach is second to none.

Founded by former Alibaba senior IT specialists, ChampionAI brings an intimate local knowledge of online platforms, structures, counterfeiting tactics and online distribution techniques.

Seamless O2O / Legal Integration

ChampionAI ensures that intelligence gathered online can feed seamlessly into offline investigations, test purchases, raids, and litigation.

As an integral part of Champion Group, we eliminate the need for outsourcing and avoids blind spots - achieving true enforcement impact.

Real-Time Global Monitoring

Our AI monitoring platform has trained on over 3 billion items and ensures that over 10 million infringing products are taken down annually.

With servers across Asia, Europe, and North America, ChampionAI provides real-time cross border monitoring with numerous redundancies.
